Did you know that according to the 2001 report "Commercial Sexual Exploitation of Children in the US, Canada and Mexico"-in 96% of all cases of child sexual exploitation, the predator is someone whom the child knows and trusts... like cops, priests, preachers, rabbis, teachers, parents, neighbors etc. and only about 4% are strangers?

Shouldn't it matter to you that cops like these are MORE likely to harm children than men looking to buy the services of minors?
